OUTDOOR 2023

INTRO

GOMMAIRE - Organic Living is a Belgian brand that brings you a timeless collection of interior and exterior furniture, as well as a wide array of decorative items.

Almost every piece in our collection has been conceived and created by our own designers, including CEO Laurent De Greef. His ideas and extensive experience have made the brand what it is today.

The soul of all natural materials is reflected in the organic shapes and textures we use: we aim to preserve nature in its purest form, both indoors and outdoors.

All these elements combined will bring a specific GOMMAIRE touch to any setting, from traditional to contemporary design.

GOMMAIRE
organic living

THE GOMMAIRE OUTDOOR COLLECTION

The GOMMAIRE outdoor collection is a blend of timeless and innovative design in teak wood, teak Root, PE wicker and rope with an indispensable organic living touch.

Outdoors, we try to preserve nature as much as possible: materials are mostly left untreated,

natural textures and imperfections are valued and retained and organic shapes are implemented in each design. As a result, all pieces blend in perfectly with the outdoor environment.

Tables, chairs, modular lounge sets, sunbeds and coffee tables: the elaborate outdoor collection can be easily integrated in outdoor spaces and pool house interiors.

We are very passionate about seating comfort, which is why we only select the best fabrics and opt for high quality outdoor cushions to complete each set.

In short, the GOMMAIRE organic living concept introduces a new style of furniture and decoration, both indoors and outdoors. The indoor and decoration & accessories collections can be admired in separate catalogues.

OUR STORY

GOMMAIRE started off with a dream: creative souls wanting to bring their own line of furniture to life.

High-quality. Elegant. Robust. Organic. GOMMAIRE designs bring nature indoors and respect organic shapes and textures outdoors. In addition, the furniture and matching accessories transform a house into a home, each piece emanating warmth and cosiness so that every nook and cranny can be enjoyed to the fullest.

Most pieces are handmade and often untreated, which makes each item unique and a tad different. The irregularities, indentations and imperfections imbue each room with character.

Though unique, both the indoor and outdoor collection pieces are timeless and match various interiors and exteriors.

Openness, honesty and transparency is a common concept at GOMMAIRE's. We believe it is of utmost importance to inform our customers whether or not special care is needed for their pieces or how they may change due to external factors. The necessary maintenance products and advice can be found at the end of the catalogue.

Most importantly, we value customer satisfaction. Happiness and long term enjoyment of our pieces is what we ultimately strive for.

DINING AREA

A wide selection of chairs, benches and tables makes it easy to find the perfect seating arrangement for your outdoor dining experience.

Our outdoor dining sets are a beautiful blend of high-quality materials such as teak wood, rattan and rope. All pieces are designed to complement each other effortlessly. Endless combinations of tables and chairs are possible.

Wooden items are not treated to preserve the natural material in its purest form. We strongly believe that wood becomes more beautiful with use and the passage of time, giving each table added character.

Discolouration and changes in patina caused by daylight makes them unique and stylish.

In line with GOMMAIRE philosophy, fluctuations in temperature, humidity and wood movement have an influence on natural cracks, which make our items look robust and natural.

Be inspired by the following pages. The entire outdoor collection, maintenance advice and products can be found at the end of the catalogue.

LOUNGE AREA

An outdoor space needs its lounge corner. The GOMMAIRE collection offers a wide range of matching lounge furniture in teak and PE wicker including sunloungers, lounge benches, sofas and modular compositions.

Every piece of lounge furniture has its own cushion set to match the designs perfectly.

They can be modified according to our extensive selection of outdoor fabrics. Pick your colour and pattern on page insert no.

The GOMMAIRE lounge furniture is versatile and can be easily integrated in your preferred outside space. Once installed in its designated place, your lounge setting is in place, the pieces will give you the most comfortable and chill experience.

Be inspired by the many possibilities on the following pages. The entire outdoor collection can be found at the end of the catalogue.

ACCESSORIES

An outside area is not complete without some finishing touches. Wooden and corten steel planters, rattan baskets, deco cushions , poufs... each and every piece will add character to your garden or terrace.

Planters and baskets will add even more greenery to an outside space when filled with some luscious plants.

GOMMAIRE accessories will have a weathered look when placed outside. However, the lifespan of natural materials is limited when exposed to certain weather conditions. The CL rattan basket collection, for example, should be considered as semi-outdoor and should be placed indoors when weather conditions are unfavourable.

Deco cushions and poufs are a beautiful addition to our furniture. The selected outdoor fabrics are all chosen for their water repellency and colour-fastness.

Moreover, they have a natural touch & feel and are woven from the best quality yarn. Cushion covers can be easily removed for cleaning. However, we do recommend bringing them inside during long periods of bad weather and in winter.

Let yourself be inspired by the settings on the following pages. The entire outdoor collection can be found at the end of the catalogue.

All GOMMAIRE outdoor cushions are manufactured with outdoor fabrics and quick dry foam by default. The colours shown are indicative and may differ from reality.

CARE & USE

We believe in letting nature run its course when it comes to our collections and the beautiful impact certain conditions can have on our furniture and decorative items. However, that does not mean they shouldn't be well cared for. That is why we offer you some useful information about the care & use of all our collection pieces.

Discover all maintenance information on how to keep your Gommaire products as good as new on the product page of our website www.gommaire.com.

WOOD

The GOMMAIRE wood collection is made of teak wood and teak root structures. Solid wood is a natural material with variations in structure and colour and can change over time.

Wood is sensitive to large differences in humidity and temperature. We therefore recommend keeping both conditions as stable as possible. The ideal relative humidity is about 40-60% and the optimal room temperature should be around 20° Celsius. If these conditions cannot be met, cracks could appear. However, that might be desirable and is, moreover, in line with the GOMMAIRE philosophy.

Changes in colour and patina are also natural to this material when exposed to daylight, each wood type having its own characteristics. At GOMMAIRE, we believe that those changes are for the better and wood only gets more beautiful over time.

If you want to move wood furniture around, please make sure to always lift the furniture and never just slide it, as to prevent breakage.

Wood items should be cleaned after unpacking. Use a damp cloth to remove dust and any white residue left by the packaging and overseas transport.

The surface of our teak wood items in naturel grey finish can be cleaned with water and natural soap at any given time. The GOMMAIRE TEAK CLEANER can be applied to remove dirt left by regular usage or air pollution. Surface stains which do not come out with water and soap can be further reduced with our STAIN REMOVER SPRAY. Lastly, our GOMMAIRE TEAK PROTECTOR can be applied on natural grey wood tables to prevent certain stains.

NATURAL RATTAN

Some of the GOMMAIRE baskets and furniture pieces are made out of Natural Rattan, called CL (and a teak wooden base for furniture).

The CL rattan will have a weathered look when placed outside, which can be desirable. However, the lifespan of this natural material is limited when exposed to certain weather conditions. Therefore, the CL rattan collection should be considered as semi-outdoor resistant. This means that the items can be used outdoors in spring and summer months, from mid-May to mid-September. In other seasons, our CL Rattan pieces should be placed indoors or under a covered patio.

To ensure a longer lifetime, we advise to clean the rattan with a brown soap and water solution each year to maintain flexibility and then treat the rattan with our GOMMAIRE Teak Protector on a yearly basis too, making the material more water repellant. The material can be cleaned with natural soap and water anytime.

Due to the 100% natural characteristics of the material, variations in colour and thickness may vary between pieces. Similar to wood, natural rattan is a living product. Climate differences, such as temperature and humidity, can make the rattan move, lose its shape, or sometimes pop out. Should this happen, the loose rattan stem can just be cut off. If you wish to replace the concerned stem, you can request a new stem from our Sales Department and weave it back in.
